

South Dalton, Lockington & Lund

20.5 miles (33km) from Market Weighton

2

Village green and pub at Lund

This ride skirts gently to the south of Goodmanham Wold and across parkland to South Dalton village. Here the 208-ft (63m) spire of St Mary's church dominates the skyline for miles around. The route continues on through the attractive villages of Lockington and Lund, before climbing gently up and over the Wold to return via Goodmanham village (where the pub has its own micro-brewery) to Market Weighton, where William 'Giant' Bradley was born in 1787. There are wonderful views as you ride back over Goodmanham Wold.
